Musical Director Wolff has arranged a number of specialties for this bill, which, it is said, are of exceptional merit.

### MARY PICKFORD IN ALASKA FILM

"Little Pal," Mary Pickford's latest screen success, provides this charming little actress with one of the most unique roles of her short though varied career before the camera. The photo-play is one of primitive emotions and primal passions and evidences a hitherto unsuspected aspect of Miss Pickford's astounding versatility.

Unfamiliar with modern customs and remote from all the influences which have fashioned our present civilization, "Little Pal" recognizes no other force than the dominant love which develops within her for the one man who has befriended her and shown her justice.

The scenes of "Little Pal" are mostly laid in the great Alaskan gold fields, the time being in the days of the first mad rush to the Klondike.

Then he noticed that they were without weapons, and at the same moment there appeared from somewhere in the background an Irish soldier, who

### THREE BIG NAMES ARE FEATURED AT HAWAII THEATER

Wilkie Collins, Eugene O'Brien and Elaine Hammerstein are among the names to conjure with at the Hawaii theater today, tomorrow and Saturday. Wilkie Collins, because he wrote "The Moonstone," the photo-dramatic offering; Eugene O'Brien as the male star of the picture, and Elaine Hammerstein in the leading feminine role.

O'Brien is making his initial photo-dramatic appearance, and has been cast in one of the most interesting and deeply exciting of all of the Wilkie Collins novels. The role of Franklin Blake is said to be a perfect one for Eugene O'Brien, who comes to the pictures from the speaking stage with a long list of successes to his credit. Incidentally he has the reputation of being a "matinee idol" besieged with love billets and photographs. This, of course, is on the speaking stage. In

the pictures he refuses all such attentions.

Elaine Hammerstein is the granddaughter of Oscar Hammerstein, the noted producer and impresario, and is reported to be a charming young woman and a clever actress.

"The Moonstone" will be shown twice each evening with a matinee each afternoon.

The Victrola tone is a wonderful thing. It is the tone of pure reality—throbbing with life and power—and it is exclusive with the Victrola.

Besides this true-to-life tone, the Victrola with its system of changeable needles and modifying doors enables you to instantly meet every acoustic condition **without in the least degree changing the artist's interpretation.**

These distinguishing points of superiority are only two important features that demonstrate the perfection of every detail in the Victrola, and make these patented Victrola features of interest to every one.

### Come and see these patented Victrola features

**Tapering tone arm**—with its exact taper and perfectly smooth bore, which is scientifically calculated and constructed to conform to the expanding sound waves created by the sound-box.

**"Goose-neck" sound-box tube**—the flexible metal connection between the sound-box and tapering tone arm, which enables the Victor Needle to follow the record grooves with unerring accuracy.

**Concealed sounding-boards and amplifying compartment of wood**—provide the very limit of area of vibrating surface and sound amplifying compartment, so absolutely essential to an exact and pure tone reproduction.

**Modifying doors**—may be opened wide thereby giving the tone in its fullest volume; or doors may be set at any degree graduating the volume of tone to exactly suit every requirement. Closed tight the volume is reduced to the minimum and when not in use the interior is fully protected.

**Victor system of changeable needles**—a perfect reproduction is possible only with a perfect point—therefore a new needle for each record is the only positive assurance of a perfect point. You also have your choice of full tone, half tone or further modification with the fibre needle.

When you hear the wonderful tone of the Victrola and see how the Victrola system of changeable needles enables you to enjoy every record to the fullest extent, you will realize why the Victrola is universally acknowledged the greatest of all musical instruments.
